## Welcome to CAMP CHOICE

CAMP CHOICE – Education Camp, at the Humber Institute of Technology & Advanced Learning, was developed specifically to introduce grade 6, 7 & 8 students to new levels of learning and career options while also providing an opportunity to fully experience life on a college campus.

The 3-Day Residential adventure consists of two nights accommodations in our Student Residence with a complete meal plan. Throughout the day, campers participate in a variety of informative, hands-on workshops that require thought and teamwork. Workshops are professionally designed with technology in mind. Each workshop is delivered by knowledgeable camp staff in specialized learning labs, and they all contain one common thread – fun! To round out your 3-day adventure, the program offers a variety of group activities including Humber’s Amazing Race evening entertainment and a dance party. There are lots of opportunities to socialize and meet new friends. Just like being in college!

Our 1-Day Mini-Camp adventure offers a mini-meal plan and a smaller sampling of interactive workshops and fun packed activities that encourage higher learning and give students a sneak peak into what college is all about.

No matter which program you choose, your CAMP CHOICE counsellors will be with you throughout your stay to make sure you understand and enjoy your college experience.

### What's Included?

- 2 Nights Accommodation
- All meals --- 2 Hot Breakfasts, 2 Lunches, 2 Dinners, and 2 Snacks
